*Editor & Publisher defines a weekly newspaper as any publication printing less than four times a week. A paid community newspaper has more than ninety-five percent of the total circulation as paid (i.e. 100pd 5fr); the opposite for free publications. Anything in the middle is a combination newspaper. Papers that publish two or three times a week are averaged for one paid number and one free number.

Note: Bold circulation figure indicates an audited community weekly newspaper.
